Program Highlights 2006

Deepening a Community Building Mindset

This year, CompassPoint strengthened its focus on institutional capacity building. We worked to shape the future of community-based nonprofit organizations by helping them to better understand their roles and challenges, and the complex issues that impact their work.

Core Support Funders

As we entered our third year, we were encouraged to see the growth of our core support funders. With the addition of new funders and a significant increase in support, we are able to pursue a more comprehensive set of support services and programs. CompassPoint continued to work with our current core support funders to build on our strategic relationship.

CompassPoint Transitions

Throughout 2006, we set our particular focus on executive leadership and the transition of executive directors. In our third year, we further contributed to the body of knowledge and expertise as we effectively transitioned our work and expertise as we effectively transitioned our work.

Strongening Community-Based Organizations

CompassPoint supported our partners in this year’s Development, Strengthening, and Transition efforts. We continued to build on our work with community-based organizations and leaders of color. As a result, we were able to provide leadership development, coaching, and support to organizations and leaders around the country.

New at CompassPoint

In 2006, we created a new program called the Leadership Coaching Learning Circle. This program is designed to support the leadership transition of executive directors in community-based organizations. The Leadership Coaching Learning Circle is an innovative program that provides coaching and support to leaders in their transition to executive director positions.
