

CompassPoint

Funders 2010

We are deeply grateful to our investors: the foundations, corporations, and government agencies whose contributions to CompassPoint support our efforts to strengthen leaders and guide nonprofits as they become better managed, more adaptive, and achieve higher impact towards social equity.

CompassPoint cannot achieve the impact and change we seek in the community without meaningful partnerships with key funders. We thank the following institutional donors for their indispensable program and general operating support in 2010.
